## Ntegra™

Multi-currency desktop banknote  
counter / sorter

The power of a sorter in the body of a counter

Ntegra is the compact and portable desktop solution for multi-currency counting and sorting challenges.

Engineered to deliver unprecedented efficiency savings through continuous and uninterrupted use, Ntegra can denominate and authenticate different currencies at a processing speed of 1200 notes per minute.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Ntegra can revolutionise desktop cash handling in small, medium and large cash processing environments. Optional fitness sorting capability ensures that processes, which were once only achievable on large sorting systems, are now attainable at the front line.

Ntegra is ideal for organisations looking to deploy an affordable sorting solution that ensures banknotes meet the customer and legislative requirements (for example, the European Central Bank's Banknote Recycling Framework).

Ntegra is a true desktop machine with a large reject pocket providing high speed uninterrupted processing.

A compact footprint allows Ntegra to be used in areas where space is a premium, whilst a strong and robust design means that Ntegra is at home in small, medium and large desktop processing environments.

### Detection

- Full width CIS, IR and Tape
- UV, FL, PPD and Double Detection
- Multi Channel Magnetics

### User Experience

Ntegra provides an unmatched user experience. A large colour LCD display, along with Windows CE, Graphics User Interface (GUI) and multi-language options provides a machine which is incredibly easy and intuitive to use.

Modes:

- Counting
- Authentication
- Denomination
- Multi-currency
- Facing
- Orientation
- Fitness Sorting: Soil, Holes, Tears, Tape etc
- Issue Splitting
- Serial Number Printing
